#### Ornithology B - Ornithology B - Pearl City Invitational - 12-12-2020

Station 1
1. (1.00 pts) Identify the common name of Specimen A from the following call.
-:- C
2. (1.00 pts) What type of call is this?
○ A) Flight Call
O B) Mating Call
○ C) Alarm Call
O D) Contact Call
C E) Begging Call
3. (1.00 pts) What is the average amount of time it takes the female to lay all her eggs?
Answer formatting: number, then unit of time
4. (1.00 pts) The hatchlings continue to be fed by adults after leaving the nest.
○ True ○ False
5. (3.00 pts) Which of the following have led to decreasing populations of Specimen A?
(Mark ALL correct answers)  A) Siltation
B) Recreational Boating
C) Eutrophication
□ D) Chemical Contamination
☐ E) Habitat Loss
☐ F) Acid Rain

6. (3.00 pts)	*Describe what Specimen A does when alarmed.
0. (0.00 pts)	Describe what opecimen A does when alarmed.
7. (2.00 pts)	What differentiates adults of Specimen A from juveniles?  Answer formatting: should be two words
Statio	on 2
8. (1.00 pts)	Identify the common name of Specimen B from its nest.
9. (1.00 pts)	What is the scientific name of Specimen B?
10. (1.00 pts)	What is another name for Specimen B?

11. (1.00 pts)	What color do Specimen B's eyes appear to be when blinking?
12. (3.00 pts)	*Name all the adaptations Specimen B has to help it swim underwater.
13. (1.00 pts)	In which season is Specimen B flightless?
14. (1.00 pts)	What ecological role does Specimen B serve?

15. (1.00 pts)

Identify the common name of Specimen C from its tail.

16. (3.00 pts)	Which of the following is part of Specimen C's diet?
(0.00 p.0)	Trinoir or the remotining to pair or operation of a diet.

(Mark ALL correct answers)

- ☐ A) Different parts of tree trunk tissue
- □ B) Leaves and flowers

□ D) Insects on trees and in the air
☐ E) Berries and fruits
☐ F) Flower buds
17. (1.00 pts) Who incubates the eggs at night?
O A) Both parents
O B) Only the male
O C) Only the female
18. (3.00 pts) *How are the sexes of Specimen C differentiated? What role does this play in courtship?
19. (1.00 pts) Specimen C favors nesting in trees affected by what decomposer?
20. (2.00 pts)
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)  Identify Specimen D from its call.
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)  Identify Specimen D from its call.
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)  Identify Specimen D from its call.
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)  Identify Specimen D from its call.
On a scale of 1-10 with 10 being completely migratory and 1 being a resident bird, where does Specimen C fall? Is Specimen C protected under the Migratory Bird Act?  Answer formatting: enter a number in the first blank, yes/no in the second blank  Station 4  21. (1.00 pts)  Identify Specimen D from its call.

24. (2.00 pts) What type of cell does Specimen D have in greater number in their eyes than humans? What is the name of the layer of tissue at the back of Specimen D's eye?
25. (1.00 pts) How many times better can owls see than humans in dim light?
Answer formatting: please enter a number range
26. (1.00 pts) What can Specimen D's call be described as in a phrase?
27. (1.00 pts) What is the greatest amount of eggs that Specimen D can lay?
28. (1.00 pts) After how many weeks do hatchlings leave the nest? Are they still fed by the parents at this point?

29. (2.00 pts)

Identify the common name of the bird that laid the blue eggs (Specimen E). Then, identify the common name of the bird that laid the brown eggs (Specimen F).

<b>30.</b> (3.00 pts) Which of the following habitats can Specimen E be found in?	
(Mark ALL correct answers)  A) Thick forests B) Parks and backyards	
C) Marshes	
D) Open woodlands/shrublands	
☐ E) Farm fields	
☐ F) Shorelands	
31. (2.00 pts) Specimen E performs a strange behavior involving invertebrates. What is this behavior called? What compound is involved in this behavior?	
<b>32. (2.00 pts)</b> What is the IUCN Redlist status of Specimen E? What about Specimen F?	
33. (1.00 pts) Where is Specimen F endemic to? (answer is a region, not a country)	

34. (1.00 pts)

Identify the common name of Specimen G from its eggs.

<b>35.</b> (1.00 pts) What color is the ring around Specimen G's eye in breeding plumage?
36. (2.00 pts) How many feet deep can Specimen G dive? How long can it stay underwater for?
37. (1.00 pts) Are juveniles of Specimen G closer in appearance to adult males or adult females?
38. (2.00 pts) After how many weeks does Specimen G fledge? After how many years does Specimen G reach sexual maturity?
39. (3.00 pts) *What is another name for Specimen G? What behavior causes this name?
Station 7
40. (1.00 pts)

Identify the cor	nmon name of Specimen H.
41. (1.00 pts)	What is the dark spot on the side of Specimen H's beak called?
42. (1.00 pts)	What is the world population of these birds in millions?
	Answer formatting: number range
43. (2.00 pts)	What are the two color morphs of Specimen H?
44. (1.00 pts)	Which region of Russia does Specimen H breed in?
45. (1.00 pts)	Which of the following plant parts are NOT eaten by Specimen H?

(Mark ALL correct answers)
□ A) seeds □ B) leaves
D) berries
□ E) roots
F) it eats all parts of the plant
<b>46. (3.00 pts)</b> What word describes the tendency that females of Specimen H have in regards to nesting location?
Station 8
47. (1.00 pts)
-:- C
Identify the common name of Specimen I from the following recording.
tachtary the common name of opecanical rition the following recording.
48. (1.00 pts) What is the scientific name of Specimen I?
<b>49. (1.00 pts)</b> What color is the ring around the eye of Specimen I?
50. (1.00 pts) Are females or males of Specimen I larger?
51. (1.00 pts) How long does it take a female to lay one egg?
Answer formatting: number and unit of time
<b>52. (1.00 pts)</b> Who has an incubation patch?
○ A) Both parents

O C) Only the female
53. (1.00 pts) T/F: Specimen I is a brood parasite.
○ True ○ False
54. (1.00 pts) Which continent does Specimen I travel to for winter?
55. (1.00 pts) What word describes the speed of Specimen I's young in developing after hatching?
Station 9
56. (1.00 pts)
Identify the common name of Specimen J from the audio file.
Identify the common name of Specimen J from the audio file.
Identify the common name of Specimen J from the audio file.
Identify the common name of Specimen J from the audio file.  57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)  58. (1.00 pts) Which type does the audio file fall under?  59. (1.00 pts) When do the young of Specimen J become independent?
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)  58. (1.00 pts) Which type does the audio file fall under?  59. (1.00 pts) When do the young of Specimen J become independent?  A) When they first leave the nest
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)  58. (1.00 pts) Which type does the audio file fall under?  59. (1.00 pts) When do the young of Specimen J become independent?
57. (2.00 pts) What are the four types of Specimen J's calls? (should be description like chirp or howl, not alarm or flight call)  58. (1.00 pts) Which type does the audio file fall under?  59. (1.00 pts) When do the young of Specimen J become independent?  A) When they first leave the nest

60. (1.00 pts)	Which two Native American tribes hunt Specimen J?
	Answer formatting: Alphabetical, one tribe per blank.
61. (2.00 pts)	*Why is it hard for Specimen J to walk on land? What is the only thing it comes ashore to do?
62. (1.00 pts)	What is the scientific name of the family Specimen J belongs to?
62. (1.00 pts)	what is the scientific harne of the family speciment belongs to?
63. (1.00 pts)	*What is special about how this family flies?
64. (1.00 pts)	Are males or females of Specimen J larger in size?
Statio	n 10
65. (1.00 pts)	

Identify the common name of Specimen K from its eggs.

66. (1.00 pts)	As a juvenile, Specimen K is a(n) in regards to its diet. As it grows older, it becomes a(n)
67. (1.00 pts)	What is the name of the fleshy protuberance above Specimen K's beak?
68. (1.00 pts)	How fast can Specimen K fly?  Answer formatting: number with unit of time
69. (1.00 pts)	About how many eggs does Specimen K lay?  Answer formatting: Just a number, no unit of time
	Answer formatting, such a number, no unit of time
70. (1.00 pts)	How long after hatching can Specimen K fly?
	Answer formatting: number and unit of time

71. (1.00 pts) What are two nicknames for males of Specimen K?
Answer formatting: Alphabetical, one nickname per blank.
72. (1.00 pts) What is one nickname for females of Specimen K?
73. (1.00 pts) What are two nicknames for juveniles of Specimen K?

74. (1.00 pts)

	Identify the common name of a very intimidating Specimen L.
75. (1.00 pts)	What is the name of the plumage on juveniles that occurs as a white band on the tail?
76. (1.00 pts)	How long are the young brooded for after hatching?
	Answer formatting: number and unit of time

77. (1.00 pts) What is the full name of the law that Specimen L is federally protected under?
78. (1.00 pts) What is Specimen L's mating system?
79. (1.00 pts) Which parent of Specimen L brings food to the hatchlings more frequently?
80. (1.00 pts) How many years has Specimen L lived for in captivity? Answer only a number.
81. (2.00 pts) How fast can Specimen L fly? How fast can Specimen L dive?  Answer formatting: number and "mph"
82. (1.00 pts) What does Specimen L use when flying over valleys or deserts to mountains?
Station 12
83. (1.00 pts)

Identify the con	nmon name of Specimen M.
84. (2.00 pts)	Name the two countries where Specimen M has breeding grounds.  Answer formatting: full name of countries, alphabetical order
85. (1.00 pts)	What river is the largest breeding colony on?  Answer formatting: just the name of the river, without "river" after it
86. (1.00 pts)	What is the name meaning of Specimen M's genus?
87. (1.00 pts)	What is the family of Specimen M?
88. (1.00 pts)	Populations of Specimen M are declining around which European body of water?

89. (1.00 pts) Which international agreement applies Specimen M? Please enter the abbreviation for this agreement.
90. (2.00 pts) What are the two geographical features that Specimen M nests on?
Station 13
91. (1.00 pts)  Identify the scientific name of Specimen N's family.
92. (2.00 pts) What are the young of Specimen N called before they are fledged? What about after they are weaned?
93. (1.00 pts) What is the name of the waxy fleshy covering at the base of the upper beak of Specimen N?

**94. (1.00 pts)** What organ does Specimen N lack?

95. (1.00 pts) Which bird from the list has the largest range of this family?	
96. (2.00 pts) What are the two diet types that divide up this family?	
97. (1.00 pts) What is the common name of the pigeon that was widely used to carry messages and endemic to North America but is now extinct due to overhunting?	
98. (3.00 pts) Which of the following are mating displays of Specimen N's males?	
<ul> <li>(Mark ALL correct answers)</li> <li>A) Twitching their wings</li> <li>B) Scratching ground with their feet</li> <li>C) Aerial displays</li> <li>D) Wing claps</li> <li>E) Hopping around in a circle</li> <li>F) Lowering head</li> </ul>	
Station 14  For this station, answer with the word that matches each definition. Don't stress too much about finding the exact word because multiple answers may be accepted.	
99. (1.00 pts) Feathers at the base of the wing lying at the side of the back and often covering the folded wing.	
100. (1.00 pts) A bird past the juvenile stage that has not reached maturity.	
101. (1.00 pts) A group of bird chicks from different broods attended by a smaller number of adults, freeing other parents to forage	
102. (1.00 pts) The funnel shaped anterior end of the oviduct that accepts the egg during ovulation.	

103. (1.00 pts) A structure that covers the nares in some birds.
104. (1.00 pts) Area around the ear opening on the side of a bird's head.
105. (1.00 pts) Feet with the outer and middle toes fused for most of the length, such as in kingfishers and hornbills.
<b>106.</b> (1.00 pts) All four toes joined in a web; typical of pelicans, boobies, and cormorants.
407 (4.00 mts). A disease most commonly sheared in Heyes Finches in which the sus is swallen awart, and comptimes shut
107. (1.00 pts) A disease, most commonly observed in House Finches, in which the eye is swollen, crusty and sometimes shut.
108. (1.00 pts) The soft tissue where the two halves of the jaw joinoften conspicuous in nestlings and juvenile birds
109. (1.00 pts) A horny sheath of keratin that covers the beak.
110. (1.00 pts) The last bone at the posterior end of the vertebral column, which supports the tail feathers and related musculature. It is formed by several fused vertebrae.
The last borie at the posterior end of the vertebral column, which supports the tall reachers and related musiculature. It is formed by several fused vertebrae.
111. (1.00 pts) The outer portion of the shaft (central support) of the feather that supports the vanes.
<b>112.</b> (1.00 pts) A communal display ground for promiscuous male birds.

113. (1.00 pts) An opening in the roof of the mouth that leads to the two nasal cavities.
Station 15
114. (1.00 pts) Identify the common name of Specimen O from the following audio file.
115. (1.00 pts) How many states is Specimen O the state bird of?
Answer formatting: enter a number (1,2,3,etc.) not written out
116. (1.00 pts) What food does Specimen O prefer in bird feeders?
117. (1.00 pts) What are the young of Specimen O primarily fed?
118. (1.00 pts) T/F: Specimen O molts into a less bright plumage after winter.
○ True ○ False
119. (3.00 pts) *What does Specimen O do when given a mirror, window, or shiny surface? When does this behavior mainly occur? Which sexes of the bird do this?
120. (1.00 pts) Which federal law bans the sale of Specimen O as a cage bird?

121. (1.00 pts) What pigment type produces the bright plumage of males?
122. (1.00 pts) What is the IUCN Red List status of Specimen O?
Thank you for taking this test! Please fill out this feedback form (https://forms.gle/GE6yjvmu2iervLch9) in the next day and good luck at awards!
